

The Illinois Science Council & City of Chicago Department of Environment present

“an inconvenient truth” in a very convenient place

“an inconvenient truth”

This documentary film featuring Vice President Al Gore came through Chicago theaters briefly in mid-2006.

Since then, it has achieved international fame.

The film has won numerous awards, including an Academy Award for Best Documentary. It explains the science behind global warming in an accessible and compelling manner.

wednesday, august 22

grant park - butler field
(Monroe Street & Lake Shore Drive)
