

DRUGS, CULTURE AND THE BRAIN

with Richard Miller, Alfred Newton Richards Professor
Molecular Pharmacology and Biological Chemistry Dept., Feinberg School of Medicine

**Wednesday
February 19, 2014
6:30 - 8:00pm**

**The Firehouse Grill
750 Chicago Avenue
Evanston**

There is a constant debate in our society about the benefits and problems associated with the use of psychotropic drugs. But what exactly are these substances? Where do they come from and what do they do? How have different cultures used psychotropic drugs from the dawn of man to the present day? Morphine, LSD, Cocaine, Cannabis, Antidepressants and Antipsychotics.

Come and learn about these fascinating substances and discover what they really do.
